

Rocky Paper Vehicle Toy

Create this recycling pup the right way, with paper! Print, cut, and fold our template and you've got a paper toy kids can't wait to get their paws on!

Notes

Supplies

- * Rocky Templates
- * Scissors
- * Glue
- * Craft Knife

Directions

- * **Step 1**
Print the template on card stock or heavy weight paper and work with your kids to cut out all the pieces. Fold Rocky in half, glue both sides together, and cut along the dotted lines.
- * **Step 2**
Using a craft knife, cut slits where indicated by dashed lines. Insert the windshield where slits were created (see photo for reference), apply glue to windshield tabs and fold to hold the windshield in place.
- * **Step 3**
Fold the printable along the solid lines. Apply glue where indicated and affix the sides of the vehicles onto the glue tabs. Glue the forklifts to the side (see photo for reference).
- * **Step 4**
Allow the truck to dry before placing Rocky in and giving it to your tot to take off with!
